

Experience have shown that the correct treatment of wood with the same high quality product will improve the quality of your wood, extending its life time and are appealing to the eye!

TREATING WOOD

What we do

Treatment and maintenance of wooden doors, windows, gates, garage doors, patios and other wooden surfaces. We stick to the same product-range, which mean that once corrective steps were taken, we mainly need to maintain the wood. This WILL save you money, time and energy. Contractors will often redo all the wood every time they work on your wooden surfaces, charging you a complete overhaul fee, while we only charge a maintenance fee (and corrective fee where applicable).

Guarantee

Up to 10 years, pending condition of the wood as well as the type of work to be done.

Conditions

Participate in our FREE extended maintenance plan!
